

Ahead of the Curve brings the ideas and recommendations of many internationally renowned education leaders into one resource for educators working to help their students achieve at ever-higher levels. Each chapter contributes to a sound conceptual framework and offers specific, practical strategies for assessment. From involving students in the assessment process, to ensuring accuracy, to applying assessments to English language learners and special needs students, you will find compelling insights and proven strategies. *(edited by Douglas B Reeves)*

21st Century Skills. This anthology introduces the Framework for 21st Century Learning from the Partnership for 21st Century Skills as a way to reenvision learning and prepare students for a rapidly evolving global and technological world. This dynamic new framework promotes innovation through critical thinking, problem solving, collaboration, and technology integration, while building on mastery of core content and background knowledge. *(edited by James Bellanca & Ron Brandt)*

On Excellence in Teaching provides a comprehensive view of instruction from a theoretical, systemic and classroom perspective. The authors' diverse expertise delivers a wide range of ideas and strategies. Learn from the world's best education researchers, theorists and staff developers as they present recommendations on effective instruction. *(edited by Robert Marzano)*

Mind, Brain & Education, this landmark publication features leading researchers in the emerging field of educational neuroscience. Written for educators, Mind, Brain, & Education showcases neuroscience's insights into the learning process and explores its implications for educational theory and practice. It provides applications, examples, and suggestions for further thought and research. *(edited David A Sousa)*

On Common Ground brings the ideas and recommendations of many of North America's educational leaders into one resource for educators working to help their students achieve at ever-higher levels. Each chapter contributes to a sound conceptual framework and methods for developing professional learning communities. It provides a valuable tool for educators who are doing the hard work of improving their schools. This resource offers teachers and administrators a coherent conceptual framework and specific, practical strategies for moving forward with their improvement efforts. *(edited Roland Barth, Rebecca DuFour & Richard DuFour)*

Change Wars provides a comprehensive view of the challenges of education reform and offers strategies for change. Educational luminaries from around the globe share their theories-in-action on how to achieve deep change. As editors Andy Hargreaves and Michael Fullan note in their introduction, "Despite our differences, we are part of the same change family and its compelling narrative of improvement and justice - supporting each other where we can and challenging each other when we must...Education is entirely about change...and effective change is inalienably about learning - figuring out the best way forward for the greatest good". *(edited by Andrew Hargreaves)*

The Leading Edge™ is the undefined space where leaders venture to impact change - it is the place where the transformation begins. This series unites education authorities from around the globe and asks them to confront the important issues that effect teachers and administrators - the important issues that profoundly impact student success. The experts contributing to this anthology do not prescribe to one method to transact change. They embrace the mission, trusting that teachers and administrators - the true change leaders - will embrace the challenges and opportunities that will guarantee the success of their students
