Neuroadvantage

Discover the hidden strengths in your neurodivergent child with this revolutionary guide that transforms traditional deficit-focused approaches into a strength-based roadmap for success. Moving beyond limiting diagnostic labels, this practical handbook reveals how to identify your child's unique learning strengths and leverage them to build confidence, resilience, and lifelong capabilities. With evidence-based strategies drawn from thousands of real-world cases, you'll learn how to convert challenges in attention, sensory processing, reading, writing, and emotional regulation into powerful advantages that school systems often miss.

\$55

Neurodevelopmental Differentiation

Each of the chapters in this book is designed to help teachers and parents identify young people's learning strength areas as well as ways to improve functioning in each of the eight unique brain systems: spatial reasoning, perceptual and motor skills, concentration and memory, planning and sequencing, thinking and logic, people smarts, language and word smarts, and number smarts.

\$65

Neurodiversity & the Twice Exceptional Student

Providing a comprehensive blueprint in an easy-to-use format, this book explains classroom techniques for differentiation with tips and advice based on research and teacher experience. The topics covered include learning disabilities, gifted and high potential education, talent development and general classroom pedagogy involving curriculum differentiation and individualised programming.

\$50

Specific Learning Differences

Diana provides an overview of each identity and evaluates how you may need to adapt your levels of support in the classroom – as well as practical suggestions for modifying teaching materials and methods to make learning enjoyable, effective and accessible for all students. There are also dedicated chapters on helping students with SpLDs to improve their organisation and develop effective revision skills and exam techniques.

learning
rich in purpose
and passion

\$65

Square Pegs

This book will be invaluable in guiding leaders and teaching staff through the most effective ways to address the challenge for those children who don't 'fit' the system. It covers a broad spectrum of opportunity, from proven psychological approaches to technological innovations.

\$50

Teaching Vulnerable Learners

Using What Works, Ditching What Doesn't – Strategies for Students Who are Bored, Distracted, Discouraged or Likely to Drop Out. When schools fail to address the problems of struggling students, the consequences can be dire: course failures, absenteeism, suspensions or expulsions, dropouts.

\$85

The Big Book of Behaviour Management

Written for all teachers who need support in their classrooms, The Big Book of Behaviour Management provides you with the right tools to manage and teach behaviour, build relationships, and develop students academic, social, and self-regulation skills.

\$70

The SENCo Handbook

Debating and discussing how the SENCo role has changed and will change, this book will help all SENCOs, headteachers and school leaders to create and implement effective whole-school policy and practice for special educational needs.

\$60

Teaching to Every Kid's Potential

Is an invitation to teachers to improve the learning in their classrooms, one student at a time, using practical, evidence-based strategies. Focusing on five big ideas from neuroscience, the author shows how to apply them to build on the strengths of students. Each chapter unpacks the science to show how gifts and talents can arise to compensate for neural processing issues; and shows how to make small but powerful adjustments to classroom practice so that kids' gifts can emerge.

\$46

The Excludables

When it comes to 'The Excludables', it is time to shake up the debate. Students who are excluded from school, and society, are at a higher risk of being incarcerated. They are more likely to have mental health difficulties, special educational needs, live in poverty, have social care involvement and they disproportionately come from certain ethnic groups. This book pulls on all those threads using up to date research and establishes a deeper understanding of how and why these things affect school behaviours.

\$65

The NZ Dyslexia Handbook

In today's digital world, reading and writing are more important than ever. Students are reading and writing text on smartphones, tablets, and laptops as well as in school for hours every day. Yet many of these students will have dyslexia—between 5% and 20%, depending on the school—and they will struggle to enter this new digital world because they cannot read and write well.

\$60

The Social Emotional Classroom

The book connects five key competencies, including self-awareness, social awareness, self-management, responsible decision-making, and relationship skills, to this new understanding of the brain. You'll also learn from:

- Teacher stories included in each chapter
- The inclusion of over two decades worth of experience and research in the field of social and emotional learning
- Instructions and guides for educators to embed social and emotional learning into their everyday practices

\$46

The Teacher and the Teenage Brain

Is essential reading for all teachers and students of education. This book offers a fascinating introduction to teenage brain development and shows how this knowledge has changed the way we understand young people. It provides a critical insight into strategies for improving relationships in the classroom and helping both adults and teenagers cope better with this stage of life.

\$50

What's The Difference?

Gives new and experienced teachers a comprehensive approach to supporting the needs of autistic students while improving the learning experience for all. It provides teachers with informed background and classroom strategies to meet the unique needs of every student. This practical resource includes:

- techniques to help teachers prepare for and get to know autistic students
- anecdotes from real classrooms supported by relevant research
- lesson plans and checklists throughout the book to help implement strategies

\$46

When You're The Adult in the Room

Teaching the lesson is the easy bit. The hard bit is dealing with the confusing behaviours and emotions that can disrupt the classroom, sabotage lesson plans, and steal the joy and energy of even the most optimistic teacher. When You're the Adult in the Room is essential reading for all new teachers, and will benefit experienced educators who want to add to their understanding and confidence when dealing with the emotions and behaviours they encounter in their daily work.
